Abstract of CN 1234181 (A)

The present invention relates to an agricultural chemical product with broad insecticidal spectrum and strong pesticide durability. It is made up by mixing high-effective cypermethrin, imidacloprid, solvent, cosolvent, emulsifying agent and penetrating agent according to a certain proportion. As compared with single-component pesticide its cost is reduced by 20-40%, and its insecticidal effect is raised by above twice.
